

ANIRUDHA KAMBLE

Python Full Stack Developer | AI/ML Enthusiast

Pune, Maharashtra, India | +917676627441 | anirudhmarutikamble7441@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

CS Engineering graduate skilled in Python, Full Stack Development (React, Flask), Data Science, and Machine Learning. Built ML models and full-stack web applications during internships and academic projects. Seeking an entry-level Python Full Stack Developer role.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

Frontend / Backend: HTML5, CSS3, React.js, Flask, REST APIs, Node.js

Databases: PostgreSQL, MySQL, Supabase

Tools: Git, GitHub, VS Code

Concepts: OOP, DBMS, CRUD, API Integration

INTERNSHIP EXPERIENCE

Python Full Stack Development Intern — TechCloud IT Training, Pune *Jun 2026 – present*

- Gained hands-on experience in full-stack development using Python, HTML5, CSS3, JavaScript, Rest APIs, PostgreSQL, and developed an Employee Management System with CRUD functionality.

Data Science Intern — Kronotech Labs, Belagavi *Jan 2026 – Mar 2026*

- Cleaned and preprocessed datasets of 10,000+ records; built Logistic Regression and Random Forest classification models achieving 85%+ accuracy using Pandas, NumPy, and Scikit-learn.

PROJECTS

Disease Prediction Using Eye Retinal Images

Technologies: Python | JavaScript | SQL | HTML5-CSS3

- Built a CNN-based retinal image classification system using TensorFlow and OpenCV to predict eye diseases.
- Developed a Python backend, MySQL database, and responsive HTML/CSS/JavaScript frontend for real-time predictions.

Resume Parser & Job Role Matching System

Technologies: React | Flask | Python | Supabase | spaCy | PDFMiner | TF-IDF

- Built a Flask + React app that parses resumes (name, education, skills) and matches candidates to jobs using TF-IDF and cosine similarity.

Adaptive Quiz Recommendation System

Technologies: React | Supabase | JavaScript | Recharts

- Built an adaptive quiz platform with difficulty-based recommendations, performance tracking, and chart-based analytics.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering 2022-2026

VSM'S SRKIT, Nippani | Visvesvaraya Technological University (VTU) • CGPA: 8.1 / 10

Pre-University (PCM) — VSM's G.I. Bagewadi College, Nippani • 69.5% 2020-2022

SSLC — M E S Nippani (English Medium) • 60.64% 2019-2020

KEY STRENGTHS

- Problem Solving & Logical Thinking
- Analytical & Critical Thinking
- Quick Learner & Adaptable
- Willingness to Learn New Technologies
- Strong Programming Fundamentals
